VBP & PERFORMANCE UPDATE

**Innovation Update:
Partner Initiatives
Improving Patient Outcomes**

Christine Blidy, Chief Network Officer

Please [CLICK HERE](#) for a video message update from Christine Blidy, Millennium's Chief Network Officer, on Partner initiatives currently being supported by Millennium's Innovation program including Greater Buffalo United IPA; Erie County Medical Center; Value Network; Niagara Falls Memorial Medical Center; and Olean General Hospital, to name just a few!

PARTNER SPOTLIGHT

Niagara Falls Memorial Medical Center Driving Innovative Care

Millennium Collaborative Care is supporting the development of new quality improvement interventions through the Innovation Fund Program.

Recently, Niagara Falls Memorial Medical Center was awarded funds for several Innovation programs and has been achieving solid results since January. Sheila Kee, Executive Vice President & Chief Operating Officer recently sat down with Millennium's Steve Nelson, Director – VBP and Performance to discuss how NFMCC is putting Innovation funding received from Millennium to work on behalf of NFMCC's Medicaid patients.

Goal is to Improve, Transform Patient Quality of Care Across WNY Medicaid Population

On any given day, a percentage of Millennium's 279,000+ Medicaid clients access healthcare services across Western New York.

Whether it be a planned visit to their doctor for an annual physical; a follow-up lab test; an x-ray or MRI; medication refills at their local pharmacy or emergency room treatment – to name just a few – each interaction generates records, reports, medical images, doctor's orders, billing statements and more! ENHANCED PATIENT SERVICE UPDATE

Patient Success Story: "Finding the Light... "

Recently, members of Millennium’s Enhanced Patient Services Team, including Community Health Worker Ebony White, attempted to visit a patient home as part of the Team’s outreach priorities.

After arriving at the home and becoming immediately concerned about the safety of the surroundings, Ebony brought in additional support services to offer additional “helping hands.” The outcome? Thanks to Millennium’s Enhanced Patient Services Team, a previously unconnected patient was united with the health care and social support services needed.

DSRIP UPDATE

**Supporting Maternal and Child Health;
Reducing Premature Births**

Niagara Falls Memorial Medical Center's women's services offers high quality health and wellness services for women of all ages.

The primary objective of the Delivery System Reform Incentive Payment Program (DSRIP) is to promote community-level collaborations and focus on system reform; specifically, to achieve a 25 percent reduction in statewide avoidable hospital use over five years.

Recent Millennium DSRIP project highlights contributing to this goal include significant advancement of initiatives linked to the primary effort to provide "Support for Maternal and Child Health; Reduce Premature Births".

In specific, under the leadership of Sandy McDougal, RN, Population Health Manager/Nurse Healthcare Coach, with assistance from Ebony White, Community Health Worker, Millennium – in close collaboration with partner teams – has achieved ... [Read More](#)
